

**Do you want a different social welfare system? A different social work?
A different human service sector? A different world?**

YES? THEN JOIN US AT THE

RUMBLE FOR HUMAN RIGHTS

A special track for those involved in the social welfare field in any capacity
(student, teacher, client, worker, supervisor, advocate, victim, survivor...)

JUNE 8 – 11, 2017 - DETROIT MICHIGAN

At the **2nd International Gathering of Social Movements on Water**
and the **2nd National Legal and Legislative Summit on Water**

Social workers & human service workers are on the front-lines along with those most affected by denial of economic human rights, including—and even—water. Join us in this gathering with allies and advocates from across the U.S. and internationally who work on issues of clean, affordable and accessible water — especially for low income communities— and other rights necessary for survival of people and the planet.

Rumble Highlights include:

- Panel with front-line human service workers and families denied water, health, food, and other means of survival
- A half day social movement assembly:
Human Service Challenges In Our Times: Resist, Reflect, Act
- Interest & Action Groups for follow-up support and movement-building
- Historical reflections, lessons and political analysis, including
 - The Civil Rights Movement: Conditions then, why this moment is different, and what lies ahead
 - U.S. fascism
 - A national report and video from the New Poor People's Campaign

**A NEW POOR PEOPLE'S
CAMPAIGN FOR TODAY**
