Welcome to our bimonthly member newsletter: Radchatter!

This is a space where we provide updates on SWAA initiatives, relevant news, upcoming events, and recommendations for what to read, watch or listen to out there in the radical sphere.

Immediate Call to Action: Social Workers, Advocates, Organizers, and Human Service Workers Unite!

Rarely has the unity or solidarity among and across people and workers been so necessary to defeat authoritarianism and oligarchy in the Gilded Age. Attacks on DEI; voting; reproductive freedom and women's health care; health care for all and on public health; unions; immigration and deportation; climate change and environmental protections; the unconstitutional firing of Inspector Generals; the threats to resign to many administration leaders; the deletion and disappearance of information and data access on government websites; supporting widespread agency deregulation; recommitting to the

federal death penalty; cuts to international aid; suspension of federal holidays, and the freeze and temporary "thaw" of much federal funding impacting non-profits in every corner of the U.S. The challenges are enormous but we are stronger - especially when we work together! Solidarity!

The following resources are a starting point for building knowledge about fighting back and resisting at the local level, particularly since we, our families, neighbors, and communities are under direct attack with the strokes of a federal pen!

World Social Justice Day

Thursday, February 20, 2025

Every year on February 20th, the World Day of Social Justice promotes the importance of fair and just relations between the individual and society. The day also tackles issues such as poverty, exclusion, gender equality, human rights, and social protections.

Black History Month

Yes, we are still celebrating and lifting up the real and true Black history - today and in spite of contemporary attempts at erasure and silencing. Here are some ways to celebrate: [BLACK HISTORY](#). Check your local calendars for events near you - or schedule one! Some [Black Social Work Pioneers](#) you should know!

TOPIC: RADICAL PRACTICE 101

Thursday, February 6th at 8 PM ET

#RadChats are hour-long open ended conversations hosted by SWAA members. These sessions are not recorded. This month we'll discuss what radical practice means in general and specifically at this moment in time. We'll reflect on how our professional responsibilities may be affected by anticipated harmful policies and practices, and share resources and action plans to ensure we sustain momentum in radical social work.

CHAPTER UPDATES

The [Connecticut Chapter](#) is working on its program of legislative advocacy and work for radical policy change in CT. We are in the process of planning our third Annual People's Forum, scheduled for **February 19th**, where we hear from grassroots activists and individuals with lived experiences, on the concerns they have over legislation that has been introduced in our current legislative session - and that which has not been introduced but should be. This forum is intended to provide an opportunity for progressive/radical activists to have input into the legislative process. It will be held at the State Capitol in Hartford.

In addition to our legislative advocacy work, we are also in the process of working with existing advocacy coalitions to expand our ability to influence policy through organizing strategies to build power. The chapter continues to meet monthly, and our legislative advocacy committee is meeting weekly.

Social Workers & Allies Against Solitary Confinement (SWASC) hosted its first meeting of 2025 on January 27th. The meeting featured a slideshow presentation of our 2024 accomplishments; anyone interested in learning more about our work can [view it here](#).

In 2025, we are looking forward to collaborating with Columbia University's Justice Center by presenting at their 15th annual [Beyond the Bars Conference](#), leading educational webinars, and reintroducing our bill, "Detention Facility Healthcare Privacy and Protection Act" into the NY state legislature. To join us in our work, reach out to Nicole at swasc999@gmail.com.

ALSO, the documentary [The Strike](#) premiered on PBS this week. After many years of filmmaking, and over a decade since 30,000 incarcerated people organized a paradigm- shifting protest to end long term solitary confinement, *The Strike* is publicly available at this link on [PBS' Youtube channel, through May 3rd, 2025](#).

Show your students, organize a watch party, or watch on your own. A discussion guide is available [here](#).

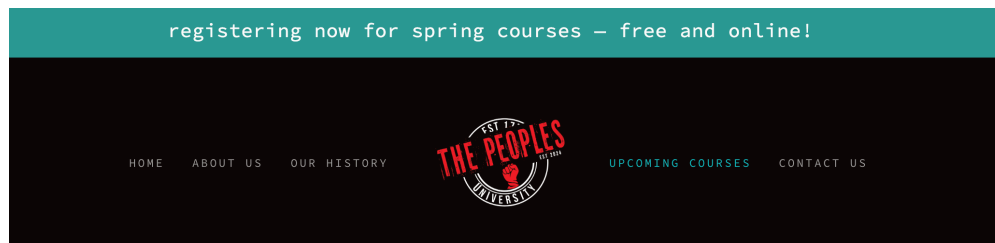

Re-cap of our October 10th **#RadChat**: What are Policy Priorities for Radical Social Work?

During this pre-Election **#RadChat**, we examined the moment we are in as radical social workers given the upcoming election and the moment we are in politically. Do current policy proposals further economic, social, environmental, and racial justice? Or, do they further the neo-liberal agenda? Do they address the root causes of oppression and suffering? The moment has changed but we thought reminding our members and guests to have a review of these moving into the new Solidarity Times.

Thanks to National Steering Committee member and Co-host Stephen Monroe (“Zak”) Tomczak (he/him), Professor of Social Welfare Policy and Community Organization at Southern Connecticut State University (SCSU) Department of Social Work for this **[framework for analyzing radical policy priorities](#)**.

February Book Recommendation

Recommended by SWAA Member Rosi B.

Excerpt about this interesting social worker includes:

"...On the way to a different life, he had one more curious experience: representative of a Moscow-based publisher of children's books, from a little office in Chicago. At last, he had become a Midwesterner of sorts, and soon he transitioned to social worker, with an MSW degree and a second marriage, this time to the daughter of a distinguished Jewish Left family.

Williams reflects notably, after all this life experience, that training as a clinical social worker in the middle 1990s, he "learned how enormously empowering and healing it is to be involved even if the outcome is not so good." (59) In the end, he won a prestigious award at the Jane Addams College of Social Work, and went on to teach in the social work college in Tacoma. A Senior Citizen Socialist, he offers this advice: struggle is hard."
